**Cost savings** over conventional power

**PR value** demonstrates commitment to sustainability

**Carbon reduction** through the use of clean, renewable energy

**Increase resiliency** to become less dependent on fossil fuels and lock-in power rates

Meet corporate **sustainability goals**

## Example Projects

### WHAT IS YOUR ENERGY BILL EACH MONTH?

**\$500**/mo.

System Size	30 kW
Cost of System	\$45,000
Total Savings (25 years)	\$65,000

**\$2,000**/mo.

System Size	100 kW
Cost of System	\$150,000
Total Savings (25 years)	\$220,000

**\$20,000**/mo.

System Size	1 MW
Cost of System	\$1.3M
Total Savings (25 years)	\$2.2M
